*When your web site maintenance and development is overwhelming and your Pay Per Click campaigns are just to large to maintain, we offer our web solution service, Rank Strategy II.*

**Rank Strategy II** is a Web Development and Search Engine Marketing program that is strategically designed and configured for Ecommerce and Lead Generator Web Sites.

**ultimate web development department** - By taking the full advantage of what Rank Strategy II has to offer, you no longer need to worry about your Web Site Development and Maintenance. Let us work for you as your ultimate web development department.

**Full Web Maintenance** means exactly what it reads. We will take over your daily maintenance tasks and assign you with a personal web developer to work with you one on one. Constant updates will be provided to keep up with the necessary changes needed to be done on the site and keep it to its full functionality at all times.

**Ecommerce Integration and Development** - We will provide you with excellent programming staff to your Web Development Needs and work toward achieving any web development and programming goals set before us. Limited web Programming will be provided as well as Ecommerce Integration and Development which is necessary to achieve a functional and advance Web Site

**Research and Development** will go hand with Professional Web Consulting and will be offered for your disposal at any time. Helping us come up with ideas will only make your online campaign grow faster and become more successful. We will use our Ranks Strategy Software to effectively track you're Web Site traffic data to put to use efficiently and provide us with the ability to take advantage of otherwise not visible opportunities. Here we will additionally be able to track our Pay Per Click campaigns to work for us and provide the most effective and targeted traffic.

### **What is it that we don't do?**

Basically nothing as long as any request or requirements fall within our services list mentioned above

### **How long do I need to stay in the program?**

This service was established to attend the needs of online businesses who are looking for a reliable and aggressive **Website Marketing Plan**. You can stay with any of our services as long as you like. You can always scale up or down to different programs we offer without any notices. Please keep in mind that it is our job to prove you we can make your online venture with us a successful one or you will quite. This is a crucial step for us and one that will immediately be shown.
