

RS Program III

*When web site development and maintenance is just not enough for a successful online web site campaign, we offer our ultimate web solution **Rank Strategy III**.*

Rank Strategy III is a Web Development and Search Engine Optimization program that is strategically designed and configured for Ecommerce Web Sites.

An Ecommerce Web Site is classified as any Web Site that is striving on its ability to sell one or more products on the Internet. It is a Web Portal in which is dependent on its ability to generate high quality traffic with targeted audience.

By taking the full advantage of what Rank Strategy has to offer, you no longer need to worry about your Web Marketing campaign nor your Web Site Development and Maintenance. Let us work for you as your ultimate web development department.

Included Services:

- Full Web Maintenance Support
- Full Web Development Support
- Search Engine Optimization Support
- Research and Development Needs Support
- Professional Web Consulting Needs Support
- Real Time Web Tracking and Web Statistics
- Full Pay Per Click Management Service
- Ecommerce Integration and Development
- Personally Assigned Web Developer and Project Manager
- And more...

Full Web Maintenance means exactly what it reads. We will take over your daily maintenance tasks and assign you with a personal web developer to work with you one on one. Constant updates will be provided to keep up with the necessary changes needed to be done on the site and keep it to its full functionality at all times.

We will provide you with excellent programming staff to your Web Development Needs and work toward achieving any web development and programming goals set before us. Web Programming will be provided as well as Ecommerce Integration and Development which is necessary to achieve a functional and advance Web Site.

Our Search Engine Specialists will work very hard to increase your Web Site Popularity and online exposure. We will set goals and provide the necessary tools to achieve a fully

Search Engine Optimized Web Site. Our main goal will be to expose your Web Site to all major Search Engines using the right keywords and phrases.

Research and Development will go hand with Professional Web Consulting and will be offered for your disposal at any time. Helping us come up with ideas will only make your online campaign grow faster and become more successful. We will use our Ranks Strategy Software to effectively track you're Web Site traffic data to put to use efficiently and provide us with the ability to take advantage of otherwise not visible opportunities. Here we will additionally be able to track our Pay Per Click campaigns to work for us and provide the most effective and targeted traffic.

What is it that you don't do?

Basically there is nothing we don't support as long as any request or requirements fall within our services as listed above.

How long do I need to stay in the program?

You can stay with any of our services as long as you like. You can always scale up or down to different programs we offer without any notice. Please keep in mind that it is our duty to prove to you we can make your online venture with us a successful one or you will quit. This is a crucial step for us and one that will immediately be shown.
